PICKLETILE™

MODERN RACQUET SPORTS

Built for the *club experience.*

Not just another court. A premium place to play, thoughtfully integrated with the property.

COMPLETED CLUB FACILITY Apogee Club, Hobe Sound, Florida

Belongs to the setting.

Architectural glass, sound mitigation and canopy options, placed where the property calls for them.

One accountable team.

Design, engineering and construction from one partner, coordinated around the club's operations.

PICKLETILE™

CONCEPT RENDERING FOR YOUR CLUB

Turn the *vision* into something real.

Photorealistic renderings, a site plan and multiple perspectives give your board and members a clear picture before construction begins.

Sample project: Homestead Regional Park, 10 pages. Conceptual design, not a completed installation.

Complimentary for qualifying clubs.

$4,000 value

PICKLETILE™

PICKLEGLASS™ · THE FLAGSHIP SYSTEM

Acoustic-rated structural glass, *engineered for the game.*

Control sound and preserve sightlines with one integrated enclosure system, engineered, documented, and independently tested.

STC 36

Acoustic performance
Independently tested

Up to 16 dBA

Sound reduction
Site conditions vary

200 mph

Windload
Engineered to ASCE 7-22

10 years

Protection
No-rust guarantee

Environmental noise study by Trinity Consultants and Cerami Longman Lindsey, 2025. A 16 dBA reduction is perceived as roughly 65% less sound.

PICKLETILE™

CLARITY BEFORE COMMITMENT

A plan your board *can act on.*

01 **Evaluate.**

Review grade, orientation, capacity, sound and existing programming.

02 **Visualize.**

See an approach suited to the property and the sports your members want.

03 **Plan.**

Receive a preliminary budget and clear next steps for your leadership team.

A $4,000 design & planning package, *complimentary for qualifying clubs.*
